Wilflex Epic™ Top Score LC

Colors that cover and provide excellent bleed protection for printing athletic garments. Wilflex Epic Top Score low cure colors deliver maximum coverage with the fewest strokes to provide color consistency when printing directly onto fabric or over an under base. Using popular industry stock colors that provide excellent on-press performance and exceptional print results on today's performance garments, printers win with Wilflex Epic Top Score low cure colors.

MORE COLORS

A premixed offering of the most popular athletic colors gives printers and brands the competitive edge. Maximize ink performance using stock colors directly from Wilflex.

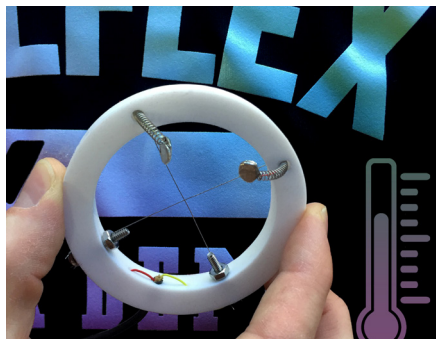

BLEED PROTECTION

Is ink bleed still an obstacle when printing directly onto polyester fabrics? Achieve excellent bleed protection from Wilflex Epic Top Score low cure color inks and minimize the risk of discoloring your prints resulting from dye migration.

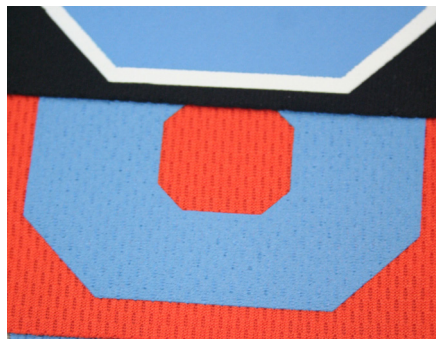

BETTER ACCURACY

Wilflex Epic Top Score low cure color inks deliver repeatable color accuracy across a wide range of substrates using both a print-flash-print and an under base technique. Achieve the target color faster and with fewer strokes, saving time and reducing cost.

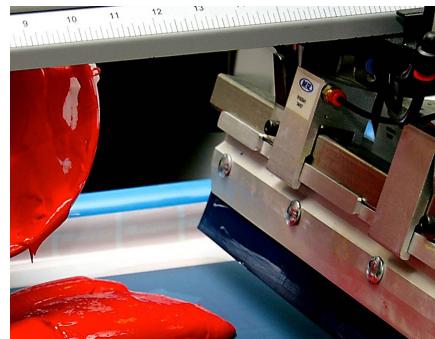

LOW CURE

Further protect expensive garments when decorating with low cure inks. Save energy and reduce the probability of costly heat-related defects.

MATTE FINISH

Wilflex Epic Top Score low cure color inks deliver a "soft look" for an athletic print. Stay on top of this industry-driven trend and win with customers.

PRINTABILITY

Top Score low cure inks print through a wide range of meshes and excel on automatic or manual presses. From small runs to large, Wilflex Epic Top Score LC inks hit the goal!
